

PE/PP Film Pelletizing Machine (300kg/h-1000kg/h)

Plastic PE PP film recycling pelletizing machine is used to processing and granulating washed LDPE film,LLDPE film,PP woven bag,HDPE film bag,etc. With new advanced technology from Europe and continues feedback comments from customers,RETECH got rich experience on design&manufacturing PP PE film pelletizing lines.

RETECH could design different models of capacity PP PE film pelletizing line by detailed requirements from customers and material conditions.

Single Stage PP PE Film Pelletizing Plant:

Capacity (kg/h)	Screw Dia	PE	PP
RCDJ85	85mm	160-220kg/h	120-200kg/h
RCDJ100	100mm	260-380kg/h	220-280kg/h
RCDJ130	130mm	450-550kg/h	380-450kg/h
RCDJ160	160mm	650-800kg/h	500-600kg/h
RCDJ180	180mm	800-1000kg/h	600-800kg/h

Layout Of PP PE Film Pelletizing Recycling Plant:
